

BACHELOR'S DEGREE IN LAW

YOUR DEGREE

The Bachelor's Degree in Law covers one of the eight most important fields in modern business: those in which today's companies are founded and by which they formulate their growth and consolidation plans. The following are some details about the degree.

YOUR POSSIBILITIES

To provide professional legal assistance to the organizations you will serve as legal representative, you will be able to prevent and resolve legal matters through litigation or, preferably, alternative means of dispute resolution.

EBC QUALITY ASSURANCE

To strengthen you professionally, the subjects you'll study in the Bachelor's Degree in Law are divided up into distinct areas of preparation, each of them intended to make sure that the knowledge you acquire becomes, in practice, a way to distinguish yourself in any organization.

PROFESSIONALIZATION

You will develop the knowledge, skills and attitudes specific to law, to successfully support people and organizations.

BUSINESS

You will learn the basis of business administration, to understand how business operate and better guide decision-making.

JOB SEARCH

You will apply the knowledge you acquire in the classroom to the real world, to strengthen your professional skills.

ENGLISH

You will use your knowledge of the English language to move in bi-lingual spheres of business.
